Subhadip Majee

sovomajee@gmail.com | (+91)9339789221

@full-name /you-full- name

SKILLS

- **Languages :** C,C++,Python,JavaScript,HTML,CSS
- **AI/Data :** Numpy, Pandas, Matplotlib
- **Tools :** Git, GitHum, VS Code, Jupyter Notebook

EDUCATION

- CSE | Techno India University *CGPA*: *7.1*
- XII (WBBSE) G D Lang Institution

ACADEMIC PROJECTS

AI Code Review Assistant | MERN Stack, Gemini API, Monaco Editor, Recharts

- Built a full-stack web app that reviews code using Google Gemini API with Monaco Editor for in-browser editing
- Designed real-time feedback UI with Recharts visualizations for code quality metrics and issue breakdowns
- Deployed frontend on Vercel and backend on Render; implemented Node.js/Express proxy to handle CORS securely

Prompt Optimization Tool | React, Vite, Anthropic API, Node.js, Express

- Developed a web-based tool to iteratively optimize LLM prompts using the Anthropic Claude API
- Built a Node.js/Express proxy server to manage CORS and keep API keys secure on the server side
- Implemented diff-style output highlighting to clearly show changes between prompt iterations

Jarvis — AI Mobile Assistant | React Native, Expo, Claude API, Voice Input

- Built a cross-platform AI assistant app with Iron Man HUD aesthetics and real-time voice input support
- Integrated Claude API for multi-turn conversations and web search for live information retrieval
- Designed animated HUD overlays and custom UI components for an immersive assistant experience

IPL & Movie Data Analysis | Python, Pandas, NumPy, Matplotlib, Jupyter Notebook

- Performed exploratory data analysis on IPL match datasets to uncover team performance trends and player stats
- Visualized insights using Matplotlib; applied data cleaning, groupby aggregations, and correlation analysis
